

# TUCOR, INC. RKW+ IRRIGATION CONTROLLER

The **RKW+ Irrigation Controller** is a wireless, conventional irrigation controller with a station and scheduling capacity of 1-100 Stations and 10 programs.

The RKW+ was expressly designed for converting conventional systems to Tucor's exceptional remote management system.

The RKW+ can operate up to 6 Stations simultaneously and up to 100 valves\*. Our unique "Add-A-Zone" feature allows you to add Stations one at a time as your system grows. The RKW+'s simple, intuitive programming comes with a wealth of controller capabilities.

Operations include up to 10 Programs running simultaneously; timing per valve in one-second increments; flow sensing; multiple alarm options; ET inputs; remote control via Internet either browser-based or locally; and many flow management methods.  
\*12 simultaneous with a second transformer.

## RKW+ FEATURES

- Wireless, 2-wire, conventional
- 100 Stations, 10 Programs
- Proactive use of ET and Soil Moisture Data
- True, Real-time, web based control
- Learned flow, flow guard, and flow stack

\*WaterSense certified when used with Tucor Weather Data.
